@theprosubs

[CASE NOTES]

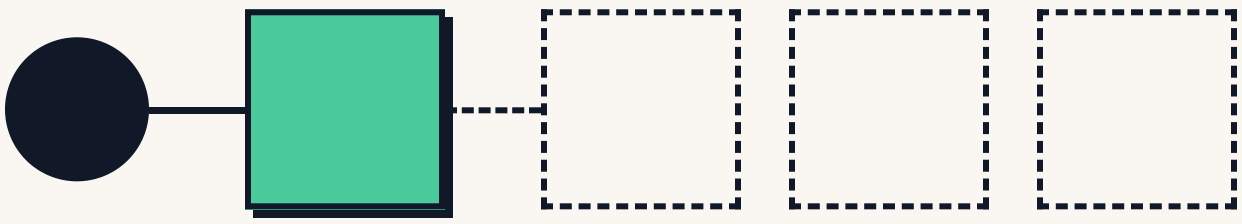

I’ve been messaging business owners one by one.

Here’s what they taught me.

CASE NOTES

[LESSON 01]

Getting paid once usually isn’t the problem.

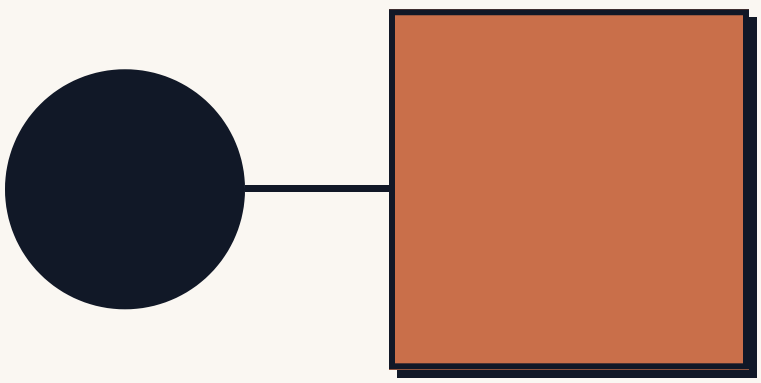

NOTES

Several people who replied already collect through Paystack. The link works. What happens after it is the hard part.

[LESSON 02]

Not everything is a renewal.

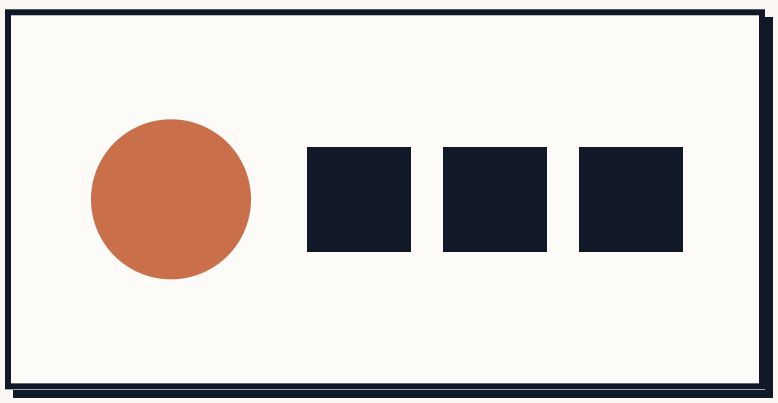

NOTES

One person charges per job, paid upfront. If your work is one-off, a tracker matters less, and that’s fine.

[LESSON 03]

People are happy where they already sell.

NOTES

Some already sell digital products on a platform they like. Nobody needs to move their files.

[YOUR TURN]

How do you get paid today?

Tell me in the comments.
I read every one.
